# The Castle ADVANTAGE

*460BRC door shown with 160BRC sidelite*

Add \$700 for woodgrain textured steel door and \$450 per woodgrain textured sidelite.

Castle is committed to providing the very best quality decorative tempered glass doorlites, sidelites and transoms to our customers.

Highly-skilled craftsmen assemble hand-beveled glass accented with a variety of unique glass options. Art glass seeks visual character through aesthetic imperfections, while maintaining structural stability. It achieves its personality through textural waves and striations, random seeds (air bubbles) and a variety of other natural effects. No two sheets are ever identical.

Each glass panel is handmade and reflects minor differences from piece to piece. We continually inspect for consistency. Any patterns that are severely out of character with the glass are not accepted. Our goal is to provide the finest quality glass panels.

Most of our entry systems are ENERGY STAR certified.

## FRAME OPTIONS

FrameSaver®

### Real World Frame Issues

Shrinking and swelling occur from changes in relative humidity in the atmosphere. **Water wicks** up through wood fibers resulting in **paint peeling, rot and mold**. Traditional door frames begin to rot within 3-6 months of field installation.

### FrameSaver® Advantages

Our **finger-jointed composite bottom** never absorbs water, warps, cracks or rots, and paints and finishes just like wood. Plus, FrameSaver is backed by the industry's only **fully-transferable lifetime limited warranty** for ultimate peace of mind.

*Castle takes pride in delivering entry systems of top quality construction, made with the finest materials and backed by our Lifetime Transferable Warranty.*

Our doors have a superior **polyurethane core**.

We also include our **20-gauge security plate** for extra strength and to help prevent kick-ins.

We use a **high performance, heat resistant window trim** that is warranted not to warp, crack or pull away from the door, even in sunny or higher temperature applications.

The weatherstripping along the top and sides of the door are **energy efficient**.

We include a **solid brass fully adjustable strike plate**. This unique 2-piece construction makes our doors easier to custom fit.

## Steel L-Frame

Our **aluminum door stop** provides greater security and is more durable than wood.

**Energy efficient weatherstripping**

**18-gauge steel L-frame with a 12-gauge hinge plate welded on** for extra strength and security.

The **Z-AC™** threshold has an auto-adjusting riser and built-in sealing system that redefines how your door can perform for you. Standard on Signet and Legacy.

Our **bulb and blade sweep** virtually eliminates drafts keeping your home comfortable.

Our **corner seal** is the most efficient you'll find for keeping moisture, air and dirt out of your home.

**Lifetime Clear Glass Warranty!**  
Includes glass breakage and seal failure.

## COMFORTECH™ ADVANTAGES

**The NO-Metal Advantage**  
"Thermal efficiency through no presence of conductive metals" is the Super Spacer® hallmark.

**Mylar 10-Layer Vapor Barrier**  
The Super Spacer® thermoset foam matrix is exceptional. Moisture is kept out, gas is kept in and conductivity is virtually nonexistent.

**Withstands Normal Bowing**  
The design of our Warm Edge Glazing System stands up to the bending and bowing that is natural in any glass unit.

**Enhanced Noise Reduction**  
Our all-foam formula's excellent sound-dampening properties reduce outside noise, even in industrial environments.

# Steel Advantages

Most of our Entry Systems are ENERGY STAR® Certified

Composite top enDLAaps increase rigidity and energy efficiency.

**Special adhesives/thermal barrier** reduce heat and cold transfer, while our exclusive tab and slot system of **mechanical interlocks** gives the door exceptional structural strength.

Castle doors are **foam filled by a computer driven process** that ensures the optimal foam fill for maximum energy efficiency and strength.

The edges and face skin of our steel doors are **one continuous piece of steel** for strength and durability.

To reinforce the lock and deadbolt area, we add a **rigid composite lock block** to all of our steel doors.

**Plugless Window Trim** is optional on Steel doors (see Price List for available styles)

Our 20-gauge steel doors give you **49% more galvanized steel** than a standard 24-gauge door.

Composite bottom enDLAaps increase rigidity and energy efficiency.

**Z-AC Threshold with auto-adjusting riser.** Standard with aluminum mill finish.

# Fiberglass Advantages

Most of our Entry Systems are ENERGY STAR® Certified

**Polyurethane core** reduces energy loss.

**Improved definition panel profile** creates excellent shadow lines and distinct panel designs.

**Specially engineered fiberglass door facings** will not dent and resist splitting, cracking and warping.

**Plugless Window Trim** is optional on Fiberglass doors (see Price List for available styles)

**ZAI™ threshold** has a **manually-adjustable riser** with complementary screw cover caps. Standard with aluminum mill finish.

**1 1/2" Finger-jointed, 2-ply solid oak laminated stiles** for both hinge and strike sides are proven to provide increased rigidity and structural integrity.

**Variable-depth woodgrain texture with hand-applied stain** imitates a wood door appearance.

**Square-edge design** offers an attractive wood door appearance.

**Lock area is reinforced** to provide a solid mounting surface for decorative hardware.

**A high-performance, composite material** is utilized on all fiberglass bottom rails, giving excellent rot-resistance.

# STAIN FINISHES HERITAGE™ FIBERGLASS & LEGACY STEEL™

## LEGACY

### 6-STEP STAIN FINISHING SYSTEM

Always refer to our color selector for accurate color representation.

## HERITAGE

### 5-STEP STAIN FINISHING SYSTEM

### 10-YEAR FINISH WARRANTY\*

Heritage and Legacy Doors

\*Warranty time period may be limited in extreme exposure applications. See warranty for details.

# PAINT FINISHES HERITAGE™ FIBERGLASS & LEGACY™ STEEL

## HERITAGE PAINTS

### 4-STEP PAINT FINISHING SYSTEM

1. A 2-part urethane, catalyst-hardened **BASE COAT** (prime paint) is applied by a robotic reciprocating paint system
2. Base coat is **OVEN-CURED** for lasting durability
3. The door is then coated with a 2-part urethane, catalyst-hardened **FINISH COAT**
4. The door is **OVEN-CURED** a second time, creating a long-lasting, durable finish

## LEGACY PAINTS

### 5-STEP PAINT FINISHING SYSTEM

1. Steel doors are **A40 Hot-dipped Galvannealed** (300% more coating thickness than 40Z full electrolytic zinc coated steel) to resist rust inside and out
2. A 2-part urethane, catalyst-hardened **BASE COAT** (prime paint) is applied by a robotic reciprocating paint system
3. Base coat is **OVEN-CURED** for lasting durability
4. The door is then coated with a 2-part urethane, catalyst-hardened **FINISH COAT**
5. The door is **OVEN-CURED** a second time, creating a long-lasting, durable finish

**10-YEAR FINISH WARRANTY\***  
Heritage and Legacy Doors

\*Warranty time period may be limited in extreme exposure applications. See warranty for details.

# FusionFrame™

Introducing the new FusionFrame: A one-of-a-kind alternative to wood jambs. Rot-proof performance of a FrameSaver® bottom, and the durability of a composite frame exterior. 15 year finish warranty.

Painted Smooth Frame

Stained Textured Frame

Available as a textured or smooth frame, providing you with the benefit of a pre-finished, maintenance-free system, along with the beauty of a stain or paint finish that matches your entry door.

- Smooth Frame is available factory finished in all paint finishes
- Textured Frame available factory finished in all paint, stain, and glazed finishes
- Frame can be painted or stained in any custom color to match entry door.
- Finish warranty will match the finish warranty of the door

## COMPOSITE BOTTOM

Prevents water absorption, warping and rotting.

4" FrameSaver composite bottom

X-Large: 13¾" x 23¾" opening for pets up to 220 lbs.

**1 year warranty on all parts except vinyl flap and security panel are not warranted**

*Why we don't recommend Doggie Doors:  
In all of Castle's field tests, every premium Doggie Door failed. The flap blows open when the wind is blowing, mice and rats can also enter the home through the flap. Even when you put the cover over the flap, cold air still comes into the home*

Castle presents the

# Alastaire

FIBERGLASS DOOR

## Knotty Alder Series

The Speakeasy, Hinge Straps and Clavos are new options that can give your entryway an old world look. Speakeasy, Hinge Straps and Clavos are constructed of durable flat black aluminum.

# Hinged Patio Doors

*Castle swinging patio door systems are available in 2 or 3-lite units and are constructed of the same solid quality doors as our entry door units.*

Textured Steel & Smooth Steel Patio Doors

Add \$700 (per panel) for woodgrain doors.

## Patio Door Standard Features

*Spring-loaded latch system automatically engages upon closing. Latch also includes interior locking feature. Fiberglass screen is standard. Heavy-duty fiberglass or aluminum screen is optional.*

*Suspended by ball bearing rollers this top-hung heavy duty aluminum screen frame reduces binding, creating effortless operation.*

*We include a keyed Schlage® flair by flair handleset with a Maximum Security thumbturn deadbolt. Choose from bright brass or antique brass finish. Optional Lifetime finish available.*

*The lock area is reinforced with additional heavy-duty steel for added security.*

*Z-AC™ Threshold with an auto-adjusting riser. Available in Mill or Anodized Bronze Finish*

**Lifetime Warranty**  
On All Designer Patio Systems

# Hinged Patio Door System

Shown with Internal Prairie Grids

# Hinged Patio Door System

5' or 6' (2 Panel) or 8' or 9' (3 Panel)

## Door to have or be:

- One side stationary, the operating side swings in (must be in contract)
- 20-Gauge steel
- New exterior brickmold with capping
- Low-E / Argon gas
- Tempered glass
- Outside sliding screen - top hung heavy-duty
- Screen frame available in all paint colors
- Flair handleset inside and out with key lock
- Maximum security thumbturn deadbolt
- New heavy-duty extruded sill
- Hot-dipped galvanized steel
- Choice of interior/exterior colors or woodgrain
- Same quality features as our entry door

## Add-ons

- Internal Blinds (only available in white)
- Doors in Textured/Woodgrain
- Doors in Heritage Fiberglass

## Grid Options (No Charge)

- External painted non-removable grid for that true French Door look
- Internal grids (see pg. 33 for internal grid options)

**NOTE:** Painted Internal Grids must be the same color inside and out.

# STORM DOORS

## STORM DOOR PAINT FINISHING SYSTEM

Our paint process is computer controlled, ensuring professional quality every time. Paint is electro-statically applied with a vertical hydraulic reciprocator using a turbo disc that atomizes the paint particles for better coverage of contoured extrusions.

### AVAILABLE IN TRENDING COLORS

### LIFETIME FINISH WARRANTY

For all Storm Doors

### STORM DOORS INCLUDE:

- Double seal bottom sweep
- 1¼" x 3⅝" wide sculptured frame
- BetterVue Fiberglass Screen

### STANDARD HARDWARE & ACCESSORIES

*Storm Door shown is #399 Self-Storing*

**Consider your fur babies when choosing your storm door!**

# STORM DOOR DETAILS

**Durable, oven-baked polyester finishes** are backed by a Lifetime Warranty for lasting beauty and low maintenance.

**Extruded aluminum frame** adds beauty to your door by virtue of the rounded cove molding along the glass edge of the extrusion.

**Corrosion-proof corner gussets** enhance the structural integrity of the door.

You'll appreciate the finished look of our **color matched aluminum installation screw covers**.

## CONSTRUCTION

	Deluxe™
① Outside corners are secured to corrosion-proof gussets, for structural integrity	●
② Color matched aluminum installation screw covers enhance the appearance of your door	●
③ The bottom sweep eliminates drafts	Double
④ The sculptured frame adds durability	1¼" x 3¾"
⑤ Multi-hollow construction provides greater strength and security than standard storm doors	●
⑥ The aluminum kick panel resists rust and adds strength	●
⑦ Corner keys provide added support to the inside of the door frame	●
⑧ Aluminum wall thickness up to 20% thicker than industry standard	●
⑨ Non-operable sash/screen secured by internal lock system or color matched polycarbonate clips	Clips
⑩ Standard insulated frame core to help reduce air movement	●

# STORM DOORS

# MORTISE HARDWARE

Mortise Hardware adds a special touch to your storm door with a solid brass handleset to suit your style.

Only Mortise hardware conveniently allows you to use the same key for your storm door and your Castle entry door.

Mortise hardware features a multi-point locking system for added strength and security not found on typical consumer-grade storm door hardware.

# SIMULATED DIVIDED PANELS

For a stylish and modern look, Simulated Divided Panel fiberglass doors feature wider SDL's (3" and/or 5") applied to the surface of glass on a 460 style Fir door or directly onto the skin of a 001 style Fir door. Numerous configurations and endless paint, glaze or stain colors allow you to create a door design that is contemporary, sophisticated and on-trend.

**Note** - Available only in Signet® Fir with Clear glass or Privacy glass  
Simulated Divided Panel designs can not be customized

- Fiberglass Only
- Any paint Color
- Fir Only
- Glazed
