THE COMPONENTS

Legacy™ Smooth 460 entry door with one sidelite in Eucalyptus with Genesis decorative glass and Schlage Georgian knob in Satin Nickel

Castle takes pride in delivering entry systems of top quality construction, made with the finest materials and backed by our Lifetime Transferable Warranty.

A

CUSTOM GLASS OPTIONS

Our ComforTech™ Warm Edge Glazing Systems include decorative glass, art glass, internal blinds, and internal and external grids.

B

CASING

Our 2½" and 3½" casing covers paint lines, providing a professional installation. Choose from Cherry, Mahogany, Oak, and Poplar. Available in stained Cherry, Fir, Mahogany, and Oak, or in painted Poplar.

C

GLASS TRIM

Available in different textures and styles. Trim options will be determined based on the door style chosen. All glass trim falls into one of two main categories: Flat and Contoured.

D

Z-AC THRESHOLD

Featuring an auto-adjusting riser and built-in sealing system that adjusts to your entry door's changing needs over time, ensuring protection against air and water infiltration. Standard on Signet® and Legacy™.

E

HEAVY-DUTY HINGES

Three heavy-duty ball bearing hinges come standard with every entry system. Additional 4th hinge option for greater durability (standard on 8' doors).

F

WEATHERSTRIPPING

The energy-efficient weatherstripping runs along the top and sides of the door and interlocks with the CornerShield™ for the most efficient seal you'll find for keeping moisture, wind and dirt out of your home.

G

SECURITY PLATE

We include our 20-gauge security plate for extra strength and to help prevent kick-ins.

H

DUST BOX & STRIKE PLATE

The dust box limits air infiltration and has a nice appearance that most other door manufacturers don't provide. An exclusively designed fully adjustable strike plate makes this unique 2-piece construction easier to custom fit.

I

SWEEP

Bulb and dual blade sweep virtually eliminates drafts, keeping your home comfortable.

COMFORTECH™ & SUPER SPACER®

NOISE REDUCTION

The all-foam formula's excellent sound dampening properties reduce outside noise, even in industrial environments.

MYLAR 10-LAYER VAPOR BARRIER

The Super Spacer thermoset foam matrix is exceptional. Moisture is kept out, gas is kept in and conductivity is virtually nonexistent.

THE NO-METAL ADVANTAGE

Thermal efficiency through no presence of conductive metals is the Super Spacer hallmark.

LASTING APPEARANCE

The Warm Edge Glazing System stands up to the natural bending and bowing from temperature changes, barometric pressure and wind load.

IMPROVED STRENGTH

The P-1 test exposes units to 140°, 95-100% humidity and constant UV bombardment. Each week of testing is equal to one year of field use. Super Spacer survives with long term P-1 performance with a low seal failure history.

WARMEST EDGE

Super Spacer provides the warmest edge among dual-seal systems with up to +14.4° F / 8° C warmer temperatures at the edge of the glass.

GLAZING SYSTEM OPTIONS

COMFORTECH GLASS PACKAGES ARE INCLUDED IN ALL:

- Decorative Glass
- Privacy Glass
- Clear Glass
- Simulated Divided Lites
- Internal and External Grids

ComforTech TLA

ComforTech DLA

STEEL ADVANTAGES

- A** Composite top endcaps increase rigidity and energy efficiency.
- B** Special adhesives/thermal barrier reduce heat and cold transfer, while our exclusive tab and slot system of mechanical interlocks gives the door exceptional structural strength.
- C** ProVia® doors are foam filled by a computer driven process that ensures the optimal foam fill for maximum energy efficiency and strength.
- D** To reinforce the lock and deadbolt area, we add a rigid composite lock block to all of our steel doors.
- E** The edges and face skin of our steel doors are one continuous piece of steel for strength and durability.
- F** Our 20-gauge steel doors give you 49% more galvanized steel than a standard 24-gauge door.
- G** Composite bottom endcaps increase rigidity and energy efficiency.
- H** Z-AC Threshold with auto-adjusting riser. Standard with aluminum mill finish.

Most Legacy Steel entry systems can be ENERGY STAR® certified.

Plugless Glass Trim is optional on Legacy Steel.
(see entryLINK for available styles)
U.S. Patent: 9,562,389
U.S. Patent: 9,976,338

FIBERGLASS ADVANTAGES

Most Ascent Fiberglass entry systems can be ENERGY STAR® certified.

- A** The inside door frame is hand-stained or painted to match the door, providing a consistent visual appearance.
- B** 2 3/4" wide wood stiles on each side of the door slab enhance structural rigidity and contribute to strong performance and durability.
- C** Glued, dowel-pinned rod construction reinforces the corners of the door unit for superior strength and alignment.
- D** Glue is applied to the rails and stiles to permanently adhere the door skin to the frame.
- E** Woodgrain-textured door edge matches the slab skin, eliminating the visual disconnect often seen on fiberglass doors.
- F** Thicker fiberglass skin than many other doors on the market improves impact resistance and long-term durability.
- G** High-performance polyurethane core delivers excellent insulation value for improved energy efficiency in both warm and cold climates.
- H** Ascent doors are foam filled by a computer driven process that ensures the optimal foam fill for maximum efficiency and strength.
- I** Premium wood was used to create the Ascent woodgrain texture through a laser/acid etching process.
- J** Where the hardware mounts, a lock block is added for extra support and durability.
- K** High-performance composite bottom rail resists rot and moisture absorption, particularly beneficial in high-exposure environments.
- L** Z-AI Threshold with manually adjustable riser. Standard with aluminum mill finish.

Plugless Glass Trim is standard on Ascent.

U.S. Patent: 9,976,338

STAIN FINISHES

LEGACY™ TEXTURED STEEL

6-STEP STAIN FINISHING SYSTEM

1. Steel doors are **A40 Hot-dipped Galvannealed** (300% more coating thickness than 40Z full electrolytic zinc coated steel) to resist rust inside and out
2. A 2-part urethane, catalyst-hardened **BASE COAT** (prime paint) is applied by a robotic reciprocating paint system
3. Base coat is **OVEN-CURED** for lasting durability
4. **HAND-APPLIED STAIN FINISH** is added for enhanced beauty
5. A layer of 2-part urethane, catalyst-hardened **CLEAR COAT WITH UV INHIBITORS** is applied
6. The door is **OVEN-CURED** a second time, creating a long-lasting, durable finish

ASCENT™ TEXTURED FIBERGLASS

7-STEP STAIN FINISHING SYSTEM

1. Proprietary preparation processes ensure excellent finish durability
2. Hand-applied stain finish formulated exclusively for ProVia® fiberglass doors
3. A layer of 2-part urethane, catalyst-hardened clear coat with UV inhibitors is applied
4. Clear coat is oven-cured for lasting durability
5. The door is hand-sanded, preparing the surface for the second layer of clear coat
6. A second layer of 2-part urethane, catalyst-hardened clear coat with UV inhibitors is applied
7. The door is oven-cured a second time, creating a long-lasting, durable finish

FRENCH DOORS

French doors bring timeless elegance and abundant natural light to your home's entryway, creating a warm and welcoming first impression. Their classic double-door design blends beauty with functionality, offering wide, open views and easy access to outdoor living spaces. With customizable styles and finishes, French doors elevate both curb appeal and everyday living.

FRENCH DOOR DETAILS

- All door styles are available as a French Door
- Hinged on each end with door knobs in the center
- Available with either left or right active door (main entryway)
- Center astragal is attached to the inactive door and includes top and bottom slide bolts (used to open inactive door)
- Available as inswing or outswing
- Header security plate standard on frame
- Hardware Installation: locksets, deadbolts and kickplates will be installed on active and inactive doors, all other hardware on active door only
- Available with Trilennium® and PanoLock® multi-point hardware

ASTRAGAL DETAILS

The French Door Astragal provides functionality and security

Astragal secures inactive door at top and bottom of your french door system

Lockable throw bolts improve security

Astragal bolt penetrates threshold allowing boot to seal, creating a better barrier against the elements

Astragal is stained to match Signet and Ascent™ Fiberglass stained doors

STYLES AND CONFIGURATIONS

All door styles are available as a French Door.

UNEQUAL FRENCH DOORS

Unequal french doors allow you to use the larger entry door day-to-day, yet have the option to open the smaller, inactive door to gain full access.

Available in Signet® and Legacy™ smooth.

Internal blind sizes are limited.

ADA ALUMINUM THRESHOLDS

REMOVABLE MULL POST & VENTING SIDELITE

When Signet® entry doors are paired with FrameSaver® frames, customers can choose to incorporate a removable mull post, providing a wider opening that simplifies moving large objects in and out of your home. Additionally, the venting sidelite with a retractable screen enhances ventilation while keeping bugs out, ensuring fresh air flows freely without compromising comfort. Available in the following configurations:

REMOVABLE MULL POST WITH VENTING SIDELITE

Retractable screen is optional with this configuration

VENTING SIDELITE

with retractable screen

FEATURES

- Fully retractable screen with magnetic rail to hold screen in closed position
- Multi-point locking system on venting sidelite
- Invisible hinges on venting sidelite

Venting sidelite must be on the strike side.

SCHLAGE® ENCODE PLUS™

SMART WI-FI DEADBOLT

#15 Camelot

#16 Century

The **Schlage Encode Plus Smart Wi-Fi Deadbolt** combines robust security, smart home compatibility, and user-friendly access control. One of its standout benefits is that you can assign unique access codes for friends, family, or guests directly through the Schlage Home app (or via Apple Home / Home Key integration). This lets you track who comes and goes, revoke or change codes as needed, and avoid giving out physical keys. It's ideal not just for primary homes, but also for rental properties or Airbnb units, where temporary or scheduled access is important. The flexibility of remote locking, activity logs, and guest access make it a strong choice for anyone managing multiple visitors or wanting more control over who enters and when.

FEATURES

- Offers iOS and Android compatibility
- Voice control with Alexa or Google Assistant
- Manage up to 100 pin codes
- Backed by a best-in-class BHMA rating in security, durability and finish
- Customizable settings make it easy to personalize your lock to fit your lifestyle

AVAILABLE FINISHES

Black

Satin Nickel

SCHLAGE® ELECTRONIC DEADBOLT

Electronic locksets and deadbolts utilize Schlage's innovative keyless access. It's convenient and customizable to fit your security needs.

- Deadbolt is available with any Schlage entry hardware
- 9-volt battery included
- Lighted keypad
- Up to 19 user codes
- Easy to add or delete codes
- Lifetime Mechanical and 3-Year Electronics Warranty

EMTEK® EMPOWERED™ 2 TOUCH DEADBOLT

Introducing the EMPOWERED 2 Touch Smart Deadbolt — the next generation of smart home security. Designed with advanced biometric access, seamless connectivity, and intuitive safety features, this deadbolt combines modern convenience with uncompromising protection. Whether you're managing access for family, guests, or rental properties, the EMPOWERED 2 Touch gives you complete control at your fingertips.

FEATURES

- **Smart Access Options:** Unlock with up to 20 stored fingerprints, 20 keypad codes, or a traditional key.
- **Seamless Connectivity:** Works with Wi-Fi and Bluetooth, plus full integration with Google Home™, Apple HomeKit®, Amazon Alexa®, Philips Hue™, and Airbnb®.
- **Yale Access App Control:** Share permanent, scheduled, or temporary access; manage all your Emtek, Yale, or August locks in one place; view a 24/7 activity feed; and receive real-time notifications (iOS/Android required).
- **Auto-Lock & Unlock Modes:**
 - *Home Mode:* Automatically locks when you leave.
 - *Away Mode:* Recognizes when you're 200 meters from home and unlocks as you return within 5 meters.
 - *Smart Safety:* Auto-Lock only activates when you're nearby via Bluetooth, ensuring security comes first.
- **DoorSense® Technology:** Magnetic sensor confirms when your door is fully closed and locked, and sends alerts if left ajar. ProVia doors come factory-prepped for easy installation.
- **Durable, User-Friendly Design:** Backlit touchscreen keypad with fade-resistant numbers, rubber gasket for weather protection, and a quiet motorized deadbolt with a tapered design to fit all doors.

A one-of-a-kind alternative to composite or wood jambs, this component utilizes the strength of an LVL interior, the rot-proof performance of a FrameSaver® bottom, and the durability of a composite frame exterior. Offering a lifetime jamb warranty*.

PREFINISHED, MAINTENANCE-FREE

Available as a textured or smooth frame, providing you with the benefit of a prefinished, maintenance-free system, along with the beauty of a stain or paint finish that matches your entry door.

FLOATING BRICKMOLD

Even if your walls aren't plumb, your door unit can be. With $\frac{1}{4}$ " of "float," the floating brickmold adjusts to fit your needs. Remove covers, install fasteners and reattach covers for a flawless, clean install.

PLUMB INDICATOR

Removable frame stop cover allows for concealed plumb indicator and fasteners.

- Installation made easy
- Removable frame and brickmold covers
- Eliminates unsightly fastener holes

INSTALLATION HOLES

Pre-drilled holes in frame for ease of installation.

COMPOSITE BOTTOM

Prevents water absorption, warping and rotting.

ULTIMATE FLEXIBILITY

Get ultimate flexibility between $4\frac{1}{16}$ " and $8\frac{1}{16}$ " frame widths.

PRIVACY GLASS

Privacy glass ensures a high level of obscurement but allows soft light to filter in and illuminate a space.

CHINCHILLA | 8

Due to the unique, tightly grooved texture of Chinchilla privacy glass, this design naturally reflects and refracts light in a more noticeable way. As a result, the glass may display a more pronounced V-like or diamond-shaped pattern (see small image above), especially in certain lighting conditions.

FLUTED | 7

MISTIFY | 6

Mistify privacy glass only available on select door styles. See entryLINK for details.

OBSCURE | 8

These photos were taken with objects directly behind the privacy glass in a well-lit space. Actual privacy levels will vary depending on your distance from the glass and the amount of light in the room in comparison to the light outside your home. For extra privacy, contact customer service to add an extra pane of privacy glass to your door. Double privacy glass is an option for SDP doors and this is set up in entryLINK.

† Modern flat window trim is used on models 112, 114 and 115 and corresponding 160 sidelites.

WHITE INTERNAL BLINDS

Internal blinds are a convenient option for blocking harsh sunlight and increasing privacy on entry doors and patio doors. Constructed with sturdy aluminum and enclosed in tempered safety glass, the blinds are protected from weathering, damage, dust and they are not a hindrance to cleaning your glass. While internal blinds offer a practical solution for blocking harsh sunlight and enhancing privacy, they are not intended as full privacy or blackout devices.

AVAILABLE DOOR STYLES

Available with clear glass and internal grids.

FEATURES

- Ergo Track on glass
- U-Privacy Channels (side, top & bottom) eliminate light gaps, shadows and sunlight glare
- Full Tilt Closure (top to bottom) allows the blinds to tilt completely closed keeping unwanted light out
- 7.0 meets Energy Star requirements with double pane glass and internal grids
- TLA (triple pane) not available

COLORED INTERNAL BLINDS

Internal blinds are available in several neutral hues to complement any room in the house. Easy to clean; no more dusting of blinds. Internal blinds are suitable for entry doors and patio doors. Offering a 10-Year Warranty. Blinds can be opened or closed using the fingertip adjustment slides so you can easily control light and privacy. They are enclosed in tempered safety glass for more energy efficiency.

HINGE STRAPS & CLAVOS

The Hinge Straps, Clavos and Speakeasy are options that can give your entryway an old world look. Combine these options with our Signet® doors to achieve a rustic or antique style. Hinge Straps, Clavos and Speakeasy are constructed of durable, flat black aluminum.

Signet® Cherry 002CP-449 entry door with two sidelites in Natural Leather Glaze with Waterfall privacy glass and Schlage® Addison hardware in Black

HINGE STRAPS

Available on all door styles shown on opposite page.

CLAVOS

Available only on door styles shown with planks on opposite page.

Signet® Cherry 002CP-449 entry door in Driftwood glaze with a Speakeasy, Hinge Straps, Clavos, and Schlage® Addison hardware in Black

- **Stain Colors**
Pick only from the eleven stain colors or seven glaze options on this page
- **Size**
Width: 32 - 34 - 36
Height: 80 - 84
- **Sidelites**
Any from our main book
Note: only 160 style sidelites can be stained to match the Alastair door. Sidelite stain will match, however there are no knots.
- **Includes prefinished interior casing to match**

ProVia® does not recommend entry doors with Speakeasy applications in the Northern climate zone. We also recognize some of the North-Central climate zone areas are not suitable for this application as well. We recommend this application to be used only in the South-Central and Southern climate zones. Speakeasy applications carry a 5-year limited warranty. (Doors with Speakeasy are not ENERGY STAR® certified.)

Signet® Cherry 003 entry door with two sidelites in Natural Bark stain with Genesis decorative glass and Schlage® Camelot hardware in Black featuring the LightEn™ in-frame light

LIGHTEN™ IN-FRAME LIGHT

NEW

Elevate your home's security and style with LightEn, the innovative header that brings built-in illumination to your entry door. This battery-powered, wire-free solution features dusk-to-dawn motion sensors that automatically light the way at night or in low-light areas, adding both safety and everyday convenience with a sleek, integrated design.

BUILT-IN ENTRY LIGHTING FOR SAFETY AND PEACE OF MIND

- Discreetly integrated into the door frame.
- Delivers automatic overhead lighting to help you safely unlock and enter your home in the dark.

MOTION-ACTIVATED ILLUMINATION

- The dusk-to-dawn sensor detects movement within 4-6 feet.
- Illuminates only in low-light conditions to optimize battery life and enhance nighttime security.

BATTERY-POWERED CONVENIENCE

- Operates on eight AA batteries.
- No wiring required.

INSWING FRAME COMPATIBILITY

- FusionFrame®
- FrameSaver®
- PermaTech®
- Solid Wood Frames

COLOR AVAILABILITY

- Offered in a white finish.
- Compatible with painted, stained, or aluminum-clad frames.

MULTIPLE DOOR CONFIGURATIONS

- Single Doors
- French Doors (*light over both doors*)
- Hinged Patio Doors (*light over-active door only*)

See entryLINK for door width availability.

The images shown are 3-D renderings for illustrative purposes only. The exploded view is a conceptual representation intended to highlight the product's individual components and may not reflect exact scale or installation details.

Not recommended for use with a storm door, as it may obstruct the motion sensor's visibility and effectiveness.

PET DOOR OPTIONS

INTERIOR

EXTERIOR

RANGER®

Engineered from the best raw materials for a rugged, long-lasting door.

- **Cellular PVC Frame** – Strong, weatherproof, and mold-resistant, and 3,000X more insulating than metal frames.
- **Rugged Flap System** – The insulated flap system is made from premium materials for maximum energy-efficiency, pet safety, and durability. The flap has an insulating SBR rubber core, protected with marine-grade canvas on each side.
- **Locking Security Panel** – All door-mounted RANGER dog doors include a locking security panel.
- **DoubleMag™ Technology** for an airtight seal that keeps extreme weather outside.

COLORS

- Clear flap with white interior/exterior frame and a white locking panel on the interior.
- Grey flap with black interior/exterior frame and a black locking panel on the interior.

See entryLink for details

PINNACLE

WESTCOTT

TRILENNIUM MULTI-POINT LOCKING HARDWARE

The Trilennium Multi-Point locking system provides more than just security. It offers homeowners better door closure and sealing than a single point lock.

- Three 1" deadbolts latch with deadbolt throw.
- Deadbolts include anti-saw hardened steel pin.
- A solid I-beam runs the full length of the lock, and increases the strength and precision of the lock.
- Latch and deadbolt release with a single downward movement.

Top and bottom latch design allows for door misalignment and $\frac{3}{8}$ " pull-in when deadbolted.

Angled shoulder on bolt engages with the adjustable roller strike

42" WIDE DOORS

Available in Legacy™ Smooth Steel in either 40" or 42" wide options.

SOLID STYLES

STYLES WITH GLASS

* Also Available in 8' Height

** Available in 8' Height Only

NARROW DOORS

Available in Legacy™ Smooth Steel in either 24" or 28" wide options.

HINGED PATIO DOOR SYSTEM

IN 440 STYLE $\frac{3}{4}$ GLASS

5' OR 6' (2 PANEL) OR 8' OR 9' (3 PANEL)

*No external grids.

HINGED PATIO DOORS

Our hinged patio doors bring style and versatility to your home, available in 2- or 3-lite units that beautifully open your space to the outdoors. Designed to perfectly complement our Signet®, Ascent™, and Legacy™ entry doors, they create a seamless, cohesive look while delivering lasting performance and curb appeal.

STANDARD FEATURES

A keyed Schlage® Flair handleset with a Maximum Security Thumbturn deadbolt is included. Choose from Bright Brass, Antique Brass, Satin Nickel, or Black finishes.

The lock area is reinforced with a 20-gauge steel security plate for added strength.

Spring-loaded latch system automatically engages upon closing. Latch also includes interior locking feature. BetterVue® fiberglass screen mesh is standard. Heavy-duty fiberglass, aluminum or SeeVue® stainless steel mesh is optional.

Suspended by ball bearing rollers, this top-hung heavy-duty aluminum screen frame reduces binding, creating effortless operation. Screen frames are available in all standard and trending colors.

Z-AC Threshold with an auto-adjusting riser. Available in Anodized Bronze or Mill finish. Standard with Signet.

Z-AI Threshold with cap screw plugs. Available in Mill finish. Standard with Ascent.

DOOR SWING

OPTIONS

Custom Widths and Heights - Need a little more height or a little less width? We are pleased to offer customized hinged patio door widths and heights in 1/8" increments.

Door Swing - Illustrations to the left are viewed from above. Inswing only.

Finishes - Hinged patio doors are available in all finishes.

* Optional Aluminum Frame Cladding will increase brickmold-to-brickmold width by 1/4" and height by 1/8". Not all sizes available in all door types.

5' OR 6' (2 PANEL) OR 8' OR 9' (3 PANEL)

FEATURES:

- One side stationary, the operating side swings in (must be in contract)
- 20-Gauge steel
- New exterior brickmold with capping
- Low-E / Argon gas
- Tempered glass
- Outside sliding screen - top hung heavy-duty
- Screen frame available in all paint colors
- Flair handleset inside and out with key lock
- Maximum security thumbturn deadbolt
- New heavy-duty extruded sill
- Hot-dipped galvanized steel
- Choice of interior/exterior colors or woodgrain
- Same quality features as our entry door

ADD-ONS

- Internal Blinds (only available in white)
- Doors in Textured/Woodgrain
- Doors in Ascent White Oak Fiberglass

GRID OPTIONS (NO CHARGE)

- External painted non-removable grid for that true French Door look
- Internal grids

NOTE:

Painted Internal Grids must be the same color inside and out.

STORM DOOR FEATURES

- A** Smooth function is essential. That's why we include a quality door closer in every storm door package. Varies by model. Our air release system features a continuous closing action without the delayed rebound action of previous generation closers.
- B** Extruded aluminum frame adds beauty to your door by virtue of the rounded cove molding along the glass edge of the extrusion.
- C** All our storm doors are constructed with tempered safety glass.
- D** Color matched aluminum installation screw covers ensure a finished look.
- E** Non-operable sashes are secured by our color matched polycarbonate clips or an internal sash lock system. Varies by model.
- F** Each door features quality hardware that adds beauty and functionality to your new storm door. Varies by model.
- G** Durable, oven-baked polyester finishes are backed by a Lifetime Warranty for lasting beauty and low maintenance.
- H** Corrosion-proof corner gussets enhance the structural integrity of the door.
- I** Our bottom expander with sweep allows for a beautiful custom-fit to any entry. Varies by model.

Internal Sash Lock System

STORM DOOR FINISHES

PAINT FINISHING SYSTEM

Our paint process is computer controlled, ensuring professional quality every time. Paint is electrostatically applied with a vertical hydraulic reciprocator using a turbo disc that atomizes the paint particles for better coverage of contoured extrusions.

PAINT COLORS

 Denotes Trending Color

Always refer to our color selector for accurate color representation.

LIFETIME FINISH WARRANTY

For all Storm Doors

MULTI-POINT MORTISE HARDWARE

Mortise hardware adds a special touch to your storm door with a solid brass handleset to suit your style. Our Multi-Point Mortise hardware conveniently allows you to use the same key for your storm door and your ProVia® entry door.

CAMDEN

Solid Brass Mortise

SIERRA

Solid Brass Mortise

VENICE

Solid Brass Mortise

Camden comes standard on Spectrum™ storm doors.
Multi-point mortise hardware is available on Spectrum, Decorator™, Deluxe™, and DuraGuard™ storm doors.

Mortise hardware features a multi-point locking system for added strength and security not found on typical consumer-grade storm door hardware.
Requires a factory handleset prep and is not available on expander doors and Superview storm doors.

with Beveled Glass

595 Full View Double Prairie
with Beveled Glass

590 Full View

• Available in 8' height

Optional full screen with horizontal stabilizer bar available for all Decorator doors.

For French Storm Door
information refer to
entryLINK.

Acrylic is required (instead of tempered glass) for custom size storm doors where the sash size is greater than 20 square feet or the sash weight is greater than 36 pounds. entryLINK will automatically change the glass selection to acrylic based on these limits.

SIGNET® SMOOTH & FIR PANEL STYLES

For a stylish and modern look, Simulated Divided Panel fiberglass doors feature 3" and 5" wide panels applied to the surface of glass on 460 style Smooth or Fir doors. They may also be applied directly on the skin of a Smooth or Fir 001 style door. Numerous configurations and endless paint, glaze or stain colors allow you to create a door design that is contemporary, sophisticated and on-trend.

Available in Signet Fir or Smooth with Clear glass or Privacy glass.
Simulated Divided Panel designs cannot be customized.
